Operating Expenditure Report

- The budget information is based on the 2023-2024 Amended Budget approved by the Board on February 13, 2024.
- The last column shows whether the salaries expense is incurred based on the school calendar (10 months), or for the whole year (12 months), or a combination of both.
- The Operating Expenditure Report reflects nine months of actual District operations and seven months of School operations.
- The salaries and benefits are trending as expected based on the amended budgeted amounts and the applicable months for principals and vice-principals, teachers, educational assistants, support staff and other professionals. TTOC/relief salaries are trending below the amended budget.
- Although the services and supplies categories show that 32% of the amended budget amount remains available as of March 31st with 25% of the year remaining, a higher level of expenditures is incurred in the latter half of the year. Conversely, insurance expenses have a higher level of expenditure in the first half of the year, showing 12% of the amended budget remaining on March 31st.

Special Purpose Expenditure Report

- The budget information is based on the 2023-2024 Amended Budget approved by the Board on February 13, 2024.

A. Cultural and Identity Development Continuous Learning Report 2023-2024

District Principals Higginbottom and Tamblyn as well as District Teacher Coordinator Halton presented the Cultural and Identity Development Continuous Learning Report 2023-2024. In alignment with the B.C. Statement of Education Policy Order Mission, School District No. 8 (Kootenay Lake) is working towards students becoming “Educated Citizen” with proficiency in intellectual development – literacy and numeracy – human and social development, and career development. The action plan for Aboriginal education aligns with the Cultural and Identity Development Continuous Learning Report. Highlights from Aboriginal education as well as diversity education in the 2023-2024 school year at School District No. 8 (Kootenay Lake) were provided. Trustees thanked District Principal Higginbottom for her work for the district and wished her all the best for her future endeavours.

B. National Day of Mourning

Superintendent Smillie provided information on the National Day of Mourning. Flags will be lowered on April 28 at schools and worksites to remember and honour those lives lost or injured due to a workplace tragedy, as well as to collectively renew our commitment to improve health and safety in the workplace.

11. Operations and Finance – Reports from the Secretary-Treasurer

A. Preliminary Budget Report 2024-2025

Superintendent Smillie thanked Secretary-Treasurer MacArthur for her level of skills and detail when creating a positive and balanced draft budget. She also thanked the government of BC for their commitment when providing funds for public education. School District No. 8 (Kootenay Lake) has a very low student-per-teacher ratio. The district has worked hard to become an efficient organization.

Secretary-Treasurer MacArthur presented the 2024-2025 draft budget which is aligned to the strategic plan and reflects its strategic priorities. A budget overview was provided on budget considerations and framework assumptions to ensure expenditures stay within the projected funding increases. The structure of the budget is divided into operating funds (including targeted funding), special purpose funds, and capital funds. Despite a slight decline in projected student

enrolment, the total revenue is projected to increase by 0.7%, mainly due to an increase of the basic enrolment-based funding amounts by 3.4% in 2024-2025, compared to the current school year. With the district focusing on maintaining staffing, the ratio of salaries and benefits is projected to increase to 86.3% of total operating expenses in 2024-2025 compared to 85.1% in 2023-2024. Special purpose funds are projected to decrease by \$1.4 million mainly due to changes in the Classroom Enhancement Funds (CEF).

Capital funding for 2024-2025 has been announced, totaling \$3,158,689.

B. School Fees

Secretary-Treasurer MacArthur presented the proposed school fees for 2024-2025 to the Board. For the coming school year, most of the school fees have remained the same across the district. Minimal increases occurred mostly due to an increase in material costs, or the addition of new materials being provided. Where possible, schools have focused on keeping fees unchanged for programs that are required for graduation.

Secretary-Treasurer MacArthur answered Trustees' questions.

UPON a motion duly made and seconded it was **RESOLVED:** 23/24-049

THAT the 2024-2025 school fees **BE APPROVED** as proposed.

The motion carried unanimously.

C. Capital Budget Bylaw 2024-2025

Secretary-Treasurer MacArthur presented the proposed Capital Budget Bylaw 2024-2025. It contains minor capital projects which have been approved under the School Enhancement Program (SEP), Food Infrastructure Program (FIP), and Carbon Neutral Capital Program (CNCP). These projects are required to be completed by March 31, 2025. Director Kerr provided more detailed information on capital projects at different school sites.

UPON a motion duly made and seconded it was **RESOLVED:** 23/24-050

SUBJECT: Career Development Continuous Learning Report 2023-2024

For Information

Introduction

This memorandum provides an overview of the [Career Development Continuous Learning Report for 2023-2024](#).

Background

The mandate of public education is to develop the educated citizen. School District No. 8 (Kootenay Lake) is guided by its vision and core values. All resources and district initiatives are aligned with Ministry of Education and Child Care goals. School learning plans also support the commitment to the “Educated Citizen” mandate that focuses on the intellectual, human and social and career development of every student.

Information

Career development is one of the goals of the British Columbia education system that is shared by schools, family and community. Education programs in BC schools help prepare students for successful employment when they leave the K-12 school system.

SD8 strives to ensure that all learners graduate with personal career-life development goals through experiential learning, community connections, and authentic evidence of learning. In so doing, SD8 students graduate with dignity, purpose and options. The district goal for careers and transitions is to ensure all learners graduate and have the core competencies to demonstrate their career and life goals.

Action items are prioritized to ensure continuous learning for all learners, including Indigenous learners, learners with diverse abilities, children and youth in care, and English language learners. These action items are connected to the priority areas outlined in the SD8 2023-2024 Enhancing Student Learning Report.

With the implementation of a district-wide literacy coherence model, SD8 is optimistic that all students will be set up for success throughout their K-12 school experience and beyond.

The [Career Development Continuous Learning Report](#) is attached for the Board’s review.

EXECUTIVE SUMMARY

Goals of K-12 Education

School District No. 8 (Kootenay Lake) (SD8) supports all learners to continuously improve so that each learner may graduate with purpose and options for their future. This aligns with the B.C. mandate for public education outlined in the Statement of [Education Policy Order](#), [the Framework for Enhancing Student Learning Policy](#), and [the Declaration of the Rights of Indigenous Peoples Act](#).

“The purpose of the British Columbia school system is to enable learners to develop their individual potential and to acquire the knowledge, skills, and attitudes needed to contribute to a healthy society and a prosperous and sustainable economy.”

B.C. Statement of Education Policy Order Mission Statement

To support government to achieve its mission, school districts in B.C. are tasked with educating each child so they can become “the Educated Citizen.” This is a child who throughout their schooling demonstrates intellectual development – literacy and numeracy – human and social development, and career development.

The Framework for Enhancing Student Learning policy requires that boards of education will set, create and maintain a strategic plan that articulates the vision, mission, and values of the school district and identifies priorities that guide the district towards its short and long-term goals.

The Declaration on the Rights of Indigenous Peoples Act represents the province’s reconciliation framework and the commitments that Board of Education must support in furthering reconciliation.

Career development is one of the goals of the British Columbia education system that is shared by schools, family and community. Education programs in BC schools help prepare students for successful employment when they leave the K-12 school system.

Aligning to Our Strategic Plan

SD8 strives to ensure that all learners graduate with personal career-life development goals through experiential learning, community connections, and authentic evidence of learning. In so doing, SD8 students graduate with dignity, purpose and options. The district goal for careers and transitions is to prepare students to graduate with the competencies necessary to thrive in their life and career.

Aligned with the strategic plan, the implementation of career development strategic priority goals are:

- Empower students to explore diverse, future-oriented career paths
- Enhance real-world, applied financial literacy skills
- Enhance graduation pathways for middle and secondary learners to pursue interests and passions and explore post-secondary opportunities
- Increase collaboration with community partners to create opportunities for learners

This report outlines the district’s career development action plan, including the process for monitoring for continuous improvement.

- Collaboration with community, regional, and provincial partners
- A sustained focus on a cycle of continuous improvement
- Alignment with the goals and Mandate of the Ministry of Education and Child Care

A Focus on Student Success

SD8 continues to look for ways to build on strengths and celebrate learner success. By referring to data that informs decision-making, planning and practices, and by working with education partners, the district can make a difference for all SD8 learners. The annual Career Development Continuous Learning Report supports the district's mission and vision:

MISSION

We inspire and support each learner to thrive in a caring learning environment.

VISION

Our learners grow as global citizens in an innovative and inclusive community.

This report outlines how SD8 increases learner success in physical and mental well-being through social-emotional learning and creating inclusive and caring learning communities.

INTRODUCTION

Effective career development activities and the development of core competencies can help students develop a better understanding of the relationship between education and employment, broaden their career aspirations and help them develop a more informed understanding of what they need to do in order to achieve their career and life goals.

According to the Organization for Economic Co-operation and Development (OECD), “The career aspirations of young people matter. A series of longitudinal studies have shown that teenage career aspirations are a good predictor of the jobs that students go on to occupy as adults.”¹

When students complete secondary school, they should have developed:

- ◆ Competencies to be self-directed, responsible individuals who can set and meet career goals.
- ◆ Knowledge of a range of career choices, and actions needed to pursue those choices.
- ◆ Employability skills required to work effectively and collaboratively in a workplace.

This report looks at how SD8 learners perceive their readiness for the future of work and learning, with a focus on graduation program pathways, graduation completion, and post-secondary participation. The report provides a description of the supports, resources, and goals that comprise SD8’s commitment to ensuring that students graduate with dignity, purpose, and options.

The report is comprised of district career education and transitions data from the following provincial data, instruments and assessments:

- ◆ Student Learning Surveys (SLS) is administered annually to students in grades 3 or 4, 7, 10 and 12. The SLS asks students questions about their school experiences. Student participation is voluntary.
- ◆ Youth Development Index (YDI) The YDI is a self-report questionnaire that measures the health and well-being of Grade 11 students in BC.
- ◆ Grade to Grade Transitions is the number and percentage of students who are completing grade to grade transitions on time.
- ◆ Five-Year Completion Rate is the cohort of students who begin grade eight at the same time, and graduate within five years with a B.C. Certificate of Graduation (“Dogwood”).
- ◆ Six-Year Completion Rate is the proportion of students who take longer to complete high school, over the five-year expected period, and includes both the B.C. Certificate of Graduation (“Dogwood”) or B.C. Adult Graduation Diploma (“Adult Dogwood”). The BC Ministry of Education uses this model as a benchmark of student success.
- ◆ Transition to B.C. Public Post-Secondary Institutions (PSI) is information on students’ immediate transition to post-secondary institutions per school year and per school district
- ◆ Career and Trades Program Participation is the number of students who are enrolled in career, trade, and dual credit programs as reported to the Ministry of Education and Child Care (MOECC).

ALIGNMENT TO STRATEGIC PRIORITY

SD8’s existing and emerging areas of need are identified through an analysis of evidence in provincial assessments, the district’s [Enhancing Student Learning Report](#), ongoing district continuous learning reports and school learning plans.

SD8 endeavours to provide opportunities for all students to reach their goals, with a system-wide focus is on intellectual, human and social, and career development. SD8’s work in providing opportunities for all students to reach their goals is connected both to the district’s 2024–2029 strategic plan, and also reflects the goals and objectives of the Ministry of Education and Child Care’s Ministry Service Plan 2023–2025. The Ministry of Education and Child Care aims for the education system to provide equity of access, opportunity, and outcomes for all learners, from early years to graduation.

Specifically, the province is focusing on partnerships and programs that will equip students with skills for emerging sectors as part of the [StrongerBC: Future Ready Action Plan](#) designed to remove barriers and create more career-building opportunities for BC K-12 students.

Aligned with the Strategic Plan, the implementation of career development includes:

- ◆ Empower students to explore diverse, future-oriented career paths.

EVIDENCE OF LEARNING

Career Development

EDUCATIONAL OUTCOME 4: STUDENTS WILL GRADUATE

Grade to grade transitions, graduation rates, and school completion rates are indicators of success. SD8's commitment to continuous improvement in academic success for all students requires an ongoing analysis of school district and provincial grade-to-grade rates, five-year (first-time) graduation and six-year completion rates as a measure of student success.

The graduation program sets the requirements to exit the K-12 education system and ensures students are graduating with the knowledge, competencies, and skills they will need to transition successfully into higher education, training or the workforce.

GRADE-TO-GRADE TRANSITIONS

Grade-to-grade transitions indicate the number of students who transition successfully into the next grade level the first time, from grade nine onward per school year. Successful grade-to-grade transitions are an indicator of success for first time graduation.

Measure 2.3: Number and percentage of students who are completing grade-to-grade transitions on time.

Grade-to-Grade Transitions: Number and percentage of students who are completing transitions on time (students in Grade 10-11 and 11-12) in School District No. 8.

Grade 10-11 Transitions

EVIDENCE OF LEARNING

Grade 11-12 Transitions

EVIDENCE OF LEARNING

SD8 GRADE TO GRADE TRANSITIONS 2023–2024

Sources of Data and Evidence Analyzed:

The data encompasses district-level grade-to-grade transitions, specifically focusing on students in grades ten, eleven, and twelve, with a timeframe extending from the 2018–2019 to the 2023–2024 academic years. Within this dataset, particular attention is given to sub-populations, including Indigenous students (on reserve and not on reserve), children and youth in care and students with diverse abilities, to ensure a comprehensive analysis of student progress. Individual student data was also analyzed during the annual graduation review process to ensure students are on track to graduation. Finally, Student Learning Survey (SLS) data for the question, “At school, I have felt well supported when I moved to a higher grade by having course choices and timetables or calendars explained” was also analyzed for grade 10 and 12 all resident students.

Missing or Masked Data:

Data sets masked from the analysis include transitions from grade ten to eleven, and eleven to twelve for specific sub-populations. These sub-populations include Indigenous students living on reserve, and children and youth in care. The district is working toward individualizing transition supports for this population of students.

Trends Emerged from the Analysis:

In the 2022–2023 academic year, the transition rates from grade ten to eleven for all resident students, Indigenous all students, and students with diverse abilities have achieved parity in the 95% range for all sub-populations. There is a slight drop in the grade eleven to grade twelve transition rates, and a minor disparity between the all-resident and Indigenous student populations in 2022–2023, while diverse abilities students remained at 93%. Students in grades 10 through 12 indicated on the SLS that an average of 50% of students expressed a positive response in being supported in moving from grade 10 to 11 and grade 11 to 12.

Inequities of Learning Outcomes:

The data underscores inequities in learning outcomes among student populations. Specifically, transition rates for students with diverse abilities have seen a decline, moving from 98% in the 2021–2022 academic year to 94% in 2022–2023. Similarly, the transition rates for Indigenous students have experienced a decrease, dropping from 95% in 2021–2022 to 85% in 2022–2023. These figures highlight disparities for priority learners, underscoring the need for continued targeted supports to address these challenges. These trends highlight the critical challenges and disparities faced by these groups, emphasizing the urgent need for targeted strategies, supports and interventions to support equitable learning outcomes and ensure that all students have the opportunity to successfully graduate.

Stories Revealed about District’s Approaches to Supporting Teaching and Learning:

The story for students in grades 10 to 12 from the 2018–2019 to the 2023–2024 academic years reveals a stable transition rate for the all resident student population. However, it uncovers disparities among sub-populations, notably Indigenous students and those with diverse abilities. While the all resident student population maintains steady progress, these specific subpopulations have experienced declining transition rates with Indigenous students’ transitions dropping in recent years. This data story highlights a need to further scrutinize the grade eleven to twelve transition, including targeted supports to address these inequities and ensure all students have equitable opportunities to succeed in their educational pathways.

EVIDENCE OF LEARNING

Current Approaches to Equity of Learning:

To achieve academic success, cultural engagement, and well-being for Indigenous students, equitable supports and individualized graduation pathways are provided, involving three-year planning to explore career options and workforce entry. This reflects the district's dedication to addressing the varied needs of our students.

Transition planning, vital for navigating educational and life transitions, includes yearly planning for student placement and involves principals, inclusion support teachers, counselors, classroom teachers, and Aboriginal Education staff to determine optimal classroom settings, particularly for those with complex needs. This process extends to arranging school visits for a smooth adjustment to new schools within SD8. Emphasis is placed on early engagement and parental involvement.

For students nearing adulthood, early coordination with Community Living BC (CLBC) and other agencies facilitate a seamless transition to post-school life. This includes setting specific IEP goals and organizing information sessions with community agencies to support students and families during this critical period.

Key Actions & Strategies

- ◆ Develop a district graduation pathway success framework.
- ◆ Support schools in the development of career exploratory programs.
- ◆ Ensure each student has a 3-year grad plan on file, updated annually.
- ◆ Continue to support annual grade-to-grade transition meetings with a focus on priority learners.
- ◆ Facilitate secondary academic reviews (3 times annually) focusing on priority learners.
- ◆ Continue with school-based and district-based team meetings focusing on priority learners' academic success.
- ◆ Ensure that children and youth in care have individualized student learning plans that outline wraparound supports and progress toward achievement of learning goals.
- ◆ Continue to provide individualized supports for students with Indigenous ancestry, including support from Aboriginal success teachers, and Aboriginal youth and family worker liaisons.
- ◆ Provide information to families through Parent Engagement Nights (PENs), digital resources, and website updates for graduation program planning and scholarships.

Completion Rates

Completion rates are indicators of graduation with either a B.C. Certificate of Graduation ("Dogwood") or B.C. Adult Graduation Diploma ("Adult Dogwood").

Education Outcome 4: Students will graduate.

- ◆ Measure 4.1: Number and percentage of resident students who achieved a BC Certificate of Graduation Dogwood Diploma within 5 years of starting Grade 8.

EVIDENCE OF LEARNING

The five-year graduation and six-year completion rates are two of several indicators that demonstrate how well the school system is serving students:

- ◆ **Five-Year Completion Rate** is the cohort of students who begin grade eight at the same time, and graduate within five years with a B.C. Certificate of Graduation (“Dogwood”).
- ◆ **Six-Year Completion Rate** is the proportion of students who take longer to complete high school, over the five-year expected period, and includes both the B.C. Certificate of Graduation (“Dogwood”) or B.C. Adult Graduation Diploma (“Adult Dogwood”). The BC Ministry of Education uses this model as a benchmark of student success.

Most students will complete high school within the expected five-year period. Some students will take longer (e.g., students who take a year off to play sports or study abroad; or those who require an additional year to successfully finish one or two required courses) for either the B.C. Certificate of Graduation or B.C. Adult Graduation Diploma. Our district aim is to have most students graduate with the B.C. Certificate of Graduation.

British Columbia offers three pathways towards school completion:

1. **BC Certificate of Graduation**, or “Dogwood Diploma,” is awarded to students who successfully complete the provincial graduation requirements. Students require a minimum of 80 credits to graduate.
2. **BC Adult Graduation Diploma**, also known as the “Adult Dogwood”, is for adult learners (18 years of age and older) who want to take courses to complete high school and obtain their adult high school diploma.
3. **BC School Completion Certificate**, or “Evergreen Certificate” is intended to celebrate success in learning and accomplishments of students with diverse needs. The Evergreen Certificate does not represent graduation and therefore is not equivalent to a BC Certificate of Graduation. Students on an Evergreen Certificate are not counted in the completion rates.

For more information, see the [K-12 graduation program](#).

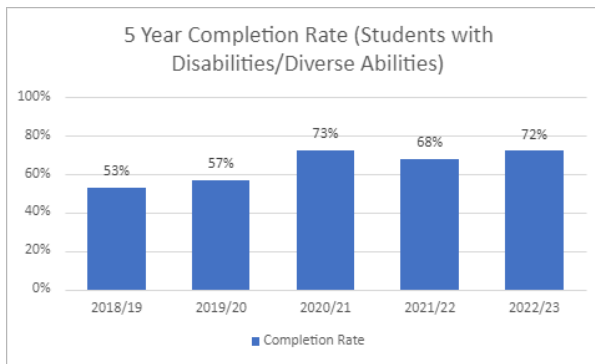

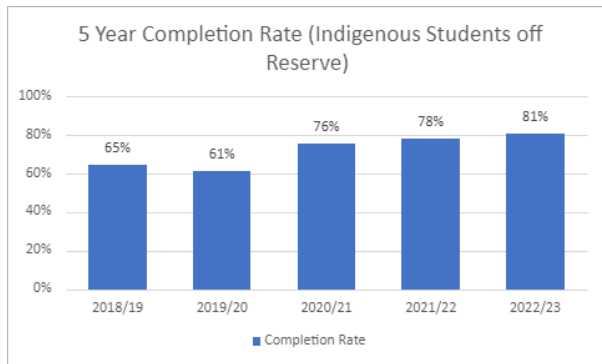

Education Outcome 4: Students will graduate.

- ◆ **Measure 4.1:** Number and percentage of resident students who achieved a BC Certificate of Graduation Dogwood Diploma within 5 years of starting Grade 8.

SD8 COMPLETION RATES 2023-2024

Sources of Data and Evidence Analyzed:

The data analyzed included five-year completion rates and six-year completion rates. Sub-populations that were of particular focus were Students with Indigenous ancestry (all, on reserve, and not on reserve), Students with Disabilities/Diverse abilities and Children/Youth in Care. Other data sources incorporated into the analysis and action plan are the Youth Development Index (YDI) and Student Learning Survey (SLS) for career education and post-secondary preparation.

Missing or Masked Data

Data sets for Indigenous students on reserve and for youth in care students rely heavily on local knowledge. The district has a high level of confidence in the accuracy of that knowledge.

Trends Emerged from the Analysis

The data indicates overall improvement in completion rates for all students over time, with notable gains among Indigenous students and students with diverse abilities. There's a consistent increase in the five-year completion rate from 73% in 2018-2019 to 87% in 2022-2023. For Indigenous students (all), starting at 65% in 2018-2019 and increasing to 81% in 2022-2023, there's a clear upward trend, while students with diverse abilities have stabilized at 72% in 2022-2023. Six-year completion rates are the highest for the district to date, increasing from 83.5% in 2018-2019 to 89.9% in 2022-2023 for all resident students, and to 88% for Indigenous (all) students. Students with diverse abilities have also typically benefited from an additional year to complete.

Inequities of Learning Outcomes

The continuation of lower completion rates among priority learner populations relative to the all resident completion rates points to ongoing equity challenges. Of note are the inconsistent rates for youth in care and the lower completion rates for Indigenous students on reserve, which require targeted interventions to ensure these students are supported effectively.

Stories Revealed about District's Approaches to Supporting Teaching and Learning

The five-year completion rate has generally improved, especially for Indigenous students overall. The six-year completion rates show that providing additional time can significantly benefit priority learner populations, particularly Indigenous students, suggesting that flexible pathways to graduation are an effective tool in

EVIDENCE OF LEARNING

improving equity and student success. However, the data also highlights the need for continued focus on tailored support strategies to address the unique needs of these groups to achieve true educational equity.

Current Approaches to Equity of Learning

Currently, the district continues to facilitate graduation program academic reviews three times during the year to ensure all students, especially priority learners, are on track to graduate. Students with Indigenous ancestry, including on reserve and not on reserve, are tracked and supported for academic success, cultural opportunities, and health and well-being to ensure they are on track to graduate. Finally, expansion in career programs, such as dual credit and trades training has been of benefit. This includes removing barriers to tuition and ancillary costs and encouraging individualized graduation pathways through three-year graduation program planning supports priority learners in career exploration and workforce entry.

Key Actions & Strategies

- ◆ Develop a district graduation pathway success framework.
- ◆ Ensure each student has a 3-year graduation plan on file, updated annually.
- ◆ Continue to support annual grade-to-grade transition meetings with a focus on priority learners.
- ◆ Facilitate secondary academic reviews (3 times annually) focusing on priority learners.
- ◆ Continue with school-based and district-based team meetings focusing on priority learners' academic success.
- ◆ Continue to provide individualized supports for students with Indigenous ancestry, including support from Aboriginal success teachers, and Aboriginal youth and family worker liaisons.
- ◆ Ensure that children and youth in care have individualized student learning plans that outline wraparound supports and progress toward achievement of learning goals.
- ◆ Provide information to families through Parent Engagement Nights (PENs), digital resources, and website updates for graduation program planning and scholarships.
- ◆ Develop an integrated core competency-based approach to Capstone and Scholarships at the district level .
- ◆ Continue to collaborate with regional colleges for transition supports and bridging strategies focusing on priority learners.

Educational Outcome 4: Students will graduate.

Measure 5.1: Number and percentage of students transitioning to Canadian post-secondary institutions within 1 and 3 years.

The Post-Secondary Institute (PSI) Transition is a measure that examines the number of students who are eligible to graduate and identifies the proportion of those students who make a transition to a B.C. public post-secondary institution.

Post-Secondary Immediate Transition Rate Post-Secondary 3-Year Transition Rate

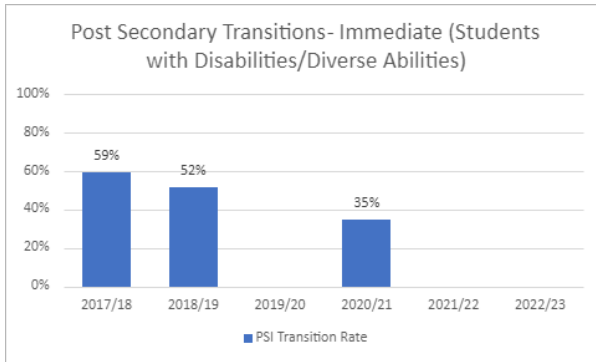

In reviewing the PSI data as provided by the Ministry of Education, students who enrol in trades partnership programs with public post-secondary institutions before meeting graduation requirements are captured in both the “immediate” and “3-year” PSI data. Over the period 2018–2019 to 2022–2023, an average of 40 district students per school year enrolled in public post-secondary trades partnership programs before meeting graduation requirements.

SD8 POST-SECONDARY TRANSITIONS 2023-2024

Sources of Data and Evidence Analyzed:

The data analyzed included immediate and three-year post-secondary transition rates. Sub-populations that were of particular focus were students with Indigenous ancestry (all, on reserve, and not on reserve), Students with Disabilities/Diverse abilities and Children/Youth in Care. Other data sources incorporated into the analysis and action plan are the Youth Development Index (YDI) and Student Learning Survey (SLS) for career education and post-secondary preparation.

Missing or Masked Data

Data sets that remain challenging to procure are those students who attend post-secondary institutions outside of B.C. as data is not readily accessible through the current data systems. Data sets for Indigenous students on reserve and for youth in care students rely heavily on local knowledge; it is currently challenging to determine the PSI transition rates for these sub-populations.

Trends Emerged from the Analysis

PSI data indicates that overall, an average of 40% of students are entering post-secondary studies immediately after high school, with a slight uptick in the delayed (three year) entry into post-secondary studies. Students with Indigenous ancestry, and those with diverse abilities lag behind their counterparts in PSI entry, for immediate and three-year transition rates. Data from the Youth Development Index (YDI) for 2022-2023 indicates that 40-50% of students plan to work or take time off to travel, with nearly 50% planning to attend university, 31% college, and 14% trades schools. Student learning survey data indicates that overall, students in grade 12 feel they can be better prepared for post-secondary education.

Inequities of Learning Outcomes

Indigenous students (all) fall slightly below their all resident counterparts in immediate PSI transitions at below 40%. The gap closes slightly for three-year PSI transitions. Students with diverse abilities are a smaller sub-set for PSI transitions and have been on par with their Indigenous (all) counterparts for the 2021-2022 immediate transition. Generally, they have improved their participation in three-year PSI transition rates, through the most recent year, 2020-2021 did not show any changes from the immediate PSI rate.

Stories Revealed about District's Approaches to Supporting Teaching and Learning

Priority learners have been increasingly tracked to ensure academic achievement and graduation program success through academic reviews and other means. As mentioned in the analysis, there is a general trend to delay post-secondary entry. Opportunities for trades training and dual credit continue to show promise and growth, with low attrition rates, and high engagement and satisfaction.

Current Approaches to Equity of Learning

Graduation program academic reviews are conducted three times during the year to ensure all students, especially priority learners, are on track to graduate. Students with Indigenous ancestry, including on reserve and not on reserve, are tracked and supported for academic success, cultural opportunities, and health and well-being to ensure they are on track to graduate. Expansion in dual credit and trades training, removing barriers to tuition and ancillary costs, and encouraging individualized graduation pathways through three-year graduation program planning supports priority learners in career exploration and workforce entry.

CAREER AND DUAL CREDIT PROGRAMS

Educational Outcome 5: Students will have the core competencies to achieve their career and life goals.

Career exploratory programs help students determine their educational or workforce trajectory. Career programs include dual credit programs that offer students the opportunity to enrol in college level programs while in high school, while gaining credit for both. Dual credit programs are tuition-free in SD8.

The SD8 Trades Training program supports a scaffolded entrance¹ to a career in the trades at the graduation program level in grades ten through twelve and beyond. SD8 students in the graduation program have opportunities through multiple regional college partners to participate in both dual credit career programs and dual credit Youth Train in Trade programs (in partnership with [Skilled Trades BC](#), the organization that advances B.C.'s trades training system).

¹ Previous career metaphors refer to a career “ladder.” The metaphor of scaffolding is more apt, as it allows for a broader base of supports, lateral movement as well as upward movement.

Career Programs in SD8 are comprised of secondary school electives that are specifically tied to a post-secondary program and career goal. The Youth Train in Trades programs, which take place at a regional college, and provide credit for both post-secondary and high school (dual credit) include the following: Automotive Technician, Carpentry, Electrical, Fine Woodworking, Hairdressing, Heavy Duty Mechanic, Metal Fabrication, Millwright Machinist, Professional Cook, Welding, and Motorcycle Technician. In addition, SD8 has partnered with regional colleges to offer a dual credit Early Child Care Education (ECCE) assistant program, and a single dual credit Business Administration course. Post-Secondary partners include College of the Rockies, Selkirk College, BCIT, Okanagan College, and Thompson Rivers University.

To provide a scaffolded pathway to secondary career programs, elective and exploratory programs at middle and secondary levels remain a key factor in supporting career development awareness. In addition, guest speakers and local events such as [Made for Trades Day](#) and the [Skills BC Regional Competition](#) ensure that students in the trades training pathway have the opportunity to both explore trades and participate in showcasing their skills.

EVIDENCE OF LEARNING

Sources of Data and Evidence Analyzed:

The data analyzed included career program participation rates in general, and trades training programs, specifically. Other data sources incorporated into the analysis and action plan are the YDI (Youth Development Index) and SLS (Student Learning Survey) for career education and post-secondary preparation.

Missing or Masked Data

Data sets that are not explicitly tracked are students with Indigenous ancestry, students with diverse abilities, and children/youth in care sub-populations. However, anecdotal data indicates a higher proportion of students with diverse abilities gravitate toward the career and trades training programs in general. In addition, schools will continue to be supported in assigning career program codes where applicable in order for the district to glean more accurate information for overall participation rates.

Trends Emerged from the Analysis

Participation in career programs in general continues to rise at the secondary program level, with a couple of minor anomalies in reporting data. Trades training career program participation has generally risen over the years, with an all-time high of 57 cohort participants in 2022-2023. However, student perceptions on the Student Learning Survey (SLS) for “are you satisfied that school is preparing you for a job in the future” indicate a lag in positive responses, and drop between grade 10 and 12, respectively. The Youth Development Index (YDI), in a random sample, shows that an average of 11% of students plan to enrol in a trade school or apprenticeship, indicating this is an area of focus, and that 79% of SD8 student respondents indicated that they agreed “a little” or “a lot” with the statement Life Skills (e.g., trades, cooking, etc.) contributed to their well-being. This indicates a positive attitude toward career program electives.

Inequities of Learning Outcomes

Through anecdotal data and observations at the school level, it is clear that students with diverse abilities tend to gravitate toward trades training and apprenticeship programs; therefore, it is important that these priority populations are supported in their career program trajectory. Generally speaking, there are few inequities of learning outcomes in this program area due to tuition funding and augmented sponsorship supports. Anecdotally, college partners have identified that preparedness for the rigour of college programs is essential in determining student success, as is student self-advocacy.

Stories Revealed about District's Approaches to Supporting Teaching and Learning

Students in SD8 are supported in their career program pathways, especially in the trades training program pathway. Beginning in middle years, through to secondary schools, students have the opportunity to begin a staged entry into the skilled trades through exploratory programs such as the Skills Explore and the Trades Sampler, and then into the Youth Train in Trades dual credit college program. The SD8 Trades Training Coordinator oversees the promotion of the program and general supervisory/administrative oversight of students, ensuring their success. Tuition is free-of-charge and supports for equipment and other course supplies are supported for low-income families.

Current Approaches to Equity of Learning

Current approaches to equity include identifying students who attend or participate in local or regional career events, and then supporting them through three-year graduation planning to ensure they are on track for their career program goals. Secondary academic reviews reveal students' intention for the career and trades programs, and confirm, especially for priority learners, that they have the necessary supports in place to succeed. The role of the SD8 Trades Training Coordinator remains essential to their success, in partnership with school teams. Finally, tuition is free for dual credit programs, and supports for equipment and other course supplies are supported for low-income families.

Key Actions and Strategies

- ◆ Develop a Career and Post-Secondary Youth Advisory Group to ensure students are included as participants in planning.
- ◆ Support schools in the development and tracking of career exploratory programs.
- ◆ Expand work experience opportunities for students in rural and remote areas.
- ◆ Ensure students have access to digital career exploratory resources.
- ◆ Develop a district graduation pathway success framework.
- ◆ Support schools in the development and tracking of career exploratory programs.
- ◆ Ensure schools have the supports and information regarding post-secondary program planning and scholarship opportunities.
- ◆ Provide information to families through SD8 Parent Engagement Nights (PENs) and website updates for graduation program planning and scholarships.
- ◆ Develop and deepen regional career, dual credit, and trades training program partnerships with colleges and institutes.
- ◆ Ensure students have opportunities to explore career pathways through regional, community, and school events.

EVIDENCE OF LEARNING

- ◆ Ensure barriers are removed for priority learners in accessing career and dual credit programs.
- ◆ Work with various community organizations (STEM, Arts, Healthcare, and Entrepreneurship) to develop events, activities, and programs for students.
- ◆ Expand work experience opportunities for students in rural and remote areas.
- ◆ Develop and deepen regional career, dual credit, and trades training program partnerships with colleges and institutes.
- ◆ Enhance regional collaboration with partner districts in providing career and dual credit opportunities for students through regional colleges.
- ◆ Promote regional dual credit, trades training, and career programs to schools and families.

CAREER PROGRAMS (FINANCIAL LITERACY)

Financial literacy is a key component of numeracy, literacy, and having the skills to participate meaningfully in work and society for one’s well-being. Financial literacy is the ability to understand and use various financial skills, including personal financial management, budgeting, and investing.

Financial literacy education is supported through the following curriculum and programs:

Curriculum or Program	Financial Literacy Topic
Intermediate Mathematics (Grades 4-6)	Making change with money
Middle Years Mathematics (Grades 7-9)	Percentage as applied to finance, simple budgeting, sales tax, tips, discounts
Workplace Mathematics 10 and 11	Gross and net pay, personal investments, loans, and budgeting
Career Life Education 10 and Career Life Connections 12	Financial planning tools Investments, budgeting, taxes

In addition, Junior Achievement BC (JABC) has been a partner organization in supplementing financial literacy and entrepreneurship at both middle years and secondary programs in past years.

Sources of Data and Evidence Analyzed:

Data analyzed included a brief scan of financial literacy programs and curriculum and the Student Learning Survey (SLS) for the question regarding satisfaction for learning basic life skills for the future.

Missing or Masked Data

At this time, there is no relevant data for Indigenous students on reserve and not on reserve or youth in care.

Analysis and Trends

Satisfaction levels fluctuate from 28% in 2018–2019 with a notable dip in 2019–2020 to 19% and a gradual increase to 30% by 2022–23 for all resident students in grade 10. For students in grade 12, the low point was in 2021–2022 rising to 21% in 2022–2023. Students with Indigenous ancestry expressed a much less positive perspective in 2022–2023 at 15% for both grade 10 and grade 12 students. Students with diverse abilities, however, overall expressed the highest level of satisfaction, though still in the mid-thirties as a percentage of students who responded positively. Across all populations, satisfaction levels remain relatively low, with the highest percentage at the 35% threshold. This suggests that improvement in financial literacy is a general area to focus on in the curriculum to better prepare students with life skills essential for their future.

Inequities of Learning Outcomes

Inequities in learning outcomes is an area for further exploration and does not have data to report on to date.

Stories Revealed about District’s Approaches to Supporting Teaching and Learning

A brief scan of the BC curriculum and career education programs indicates that financial literacy is a component of several programs as noted. Students in the Youth Train in Trades (YTT) program do have a financial literacy component as part of their Career Life Connections (CLC) 12 program. An anecdotal scan also indicates that financial literacy is targeted at the secondary level in career education programs, and in the Workplace Math 10–11 curriculum. The discrepancy between student perceptions of having financial literacy instruction and the curriculum and programming merits further investigation.

EVIDENCE OF LEARNING

Current Approaches to Equity of Learning

Consistency in curriculum and career education programming ensures equity of learning. SD8 would benefit from exploring opportunities to expand partnerships to enhance curriculum and program delivery and to better develop financial literacy achievement metrics for more meaningful reporting. Junior Achievement BC (JABC) is one organization that has partnered with district schools in prior years; however, after the pandemic, connections with the organization have been sporadic.

Key Actions & Strategies

- ◆ Develop a district financial literacy program inventory
- ◆ Connect with community partners to support and promote financial literacy in schools

CONCLUSION

School District No. 8 (Kootenay Lake) is committed to enhancing graduation pathways, empowering students to explore diverse, future-oriented career paths, to ensuring all students have opportunities to learn about post-secondary and career opportunities, and to ensuring students graduate. The action plan is focused on providing opportunities for students to explore their interests and passions through partnerships with community organizations and post-secondary institutions, as well as providing support and information to students and families regarding post-secondary programs and scholarship opportunities. The continued importance of individualized supports for students with diverse needs and Indigenous ancestry remains a focus. Overall, the action plan aims to prepare students for successful employment and career development beyond the K-12 school system as aligned with the district’s strategic plan.

DATE: May 14, 2024
SUBJECT: Approve 2024-2025 Annual Budget

For Approval

Introduction

This memorandum outlines the recommended Annual Budget 2024-2025.

Background

The Ministry of Education and Child Care requires every school district to submit a balanced budget for the next school year by June 30. The Board of Education of School District No. 8 (Kootenay Lake) is therefore required to approve and submit its 2024-2025 budget on or before June 30, 2024.

In preparation of the 2024-2025 annual budget, a detailed review was performed of ancillary budgets and programming budgets, and despite financial pressures, the district has ensured that resources were focused on classroom support.

The budget process is based on the following main considerations:

- Alignment to the 2024-2029 Strategic Plan and maintaining a focus on the new strategic priorities of: Lifelong Learners, Connected Learners, Caring and Inclusive Learning Culture, Cultural and Identity Development, and Career Development.
- Board consultation with key partners in April of each year: Kootenay Lake Principals and Vice Principals, Kootenay Lake Teachers' Association, CUPE Local 748, Aboriginal Education Council, Lower Kootenay Band, Kootenay Lake District Parent Advisory Committee, and students as well as the public.
- A public survey that provides feedback from parents and other partners on the annual budget.
- A recognition that teachers and education assistants in school classrooms and virtual spaces are vital to the success of our students.

As a result of these considerations, the district ensured that the expenditures related to the classroom were maintained and that the budget supported the Board of Education's 2024-2029 mission, "To inspire and support each learner to thrive in a caring learning environment."

Recommendation

Attached is the School District No. 8 (Kootenay Lake) Annual Budget Bylaw for fiscal year 2024/2025 for the Board's consideration and approval.

Gratitude

The Board of Education is grateful for the dedication to the students of SD8 by all employees, Indigenous rights holders and partners, and education partners. Thank you to the Kootenay Lake Teachers' Association (KLTF); CUPE 748; Kootenay Lake Principals' and Vice-Principals' Association (KLPVPA); the Lower Kootenay Band; the Okanagan Nation Alliance; West Kootenay Métis; Sinixt (Lakes); Secwepemc (Splatsin); the District Parent Advisory Council (DPAC); the school Parent Advisory Councils (PACs); Student Trustees; exempt staff; and especially students.

District Context

School District No. 8 (Kootenay Lake) (SD8) is a rural area comprising six unique school communities. Within the district lies the highest mountain pass in British Columbia, spanning two different time zones. Nestled between the Selkirk and Purcell mountain ranges, Kootenay Lake stands as one of the largest lakes in British Columbia, a widening of the Kootenay River, which in turn drains into the Columbia River system.

SD8 meets the learning needs of approximately 4,800 students across 21 schools. The district serves an area of approximately 15,000 square kilometers which includes the two main population centres of Nelson and Creston, and 11 elementary schools, 1 online learning school, 3 elementary-secondary schools (K-12), 1 middle school, 1 middle-secondary school and 4 secondary schools. SD8 employs about 900 staff.

SD8 serves the Lower Kootenay Band located in Creston, BC. According to the BC Adolescent Health Survey for SD8, of the Indigenous student population, which constitutes 15% of the student body, 56% identified as First Nations, 45% as Métis, and 8% as having another Indigenous background (including Inuit). Additionally, 9% of students are identified with diverse abilities, and less than 1% of students are identified as children and youth in care.

Climate change is raising the risk of more frequent and severe wildfires, consequently affecting the summer months with smoke from these fires and surrounding areas. Within the Kootenay Lake area, there is the highest median age of all the economic regions in the province. Unemployment in this region has consistently been higher than the provincial average. Workforce recruitment challenges impact the district.

District Strategic Plan 2024-2029

The 2024-2025 Annual Budget is guided by the district’s strategic priorities outlined in the SD8 Strategic Plan. These priorities are guided by SD8’s vision, mission and values, supported by school learning plans. All SD8 decisions are guided by a clear vision and core values and are based on evidence and extensive consultation. District initiatives and resources align with Ministry of Education and Child Care goals.

2024-2025 Budget Alignment to Continuous Student Learning

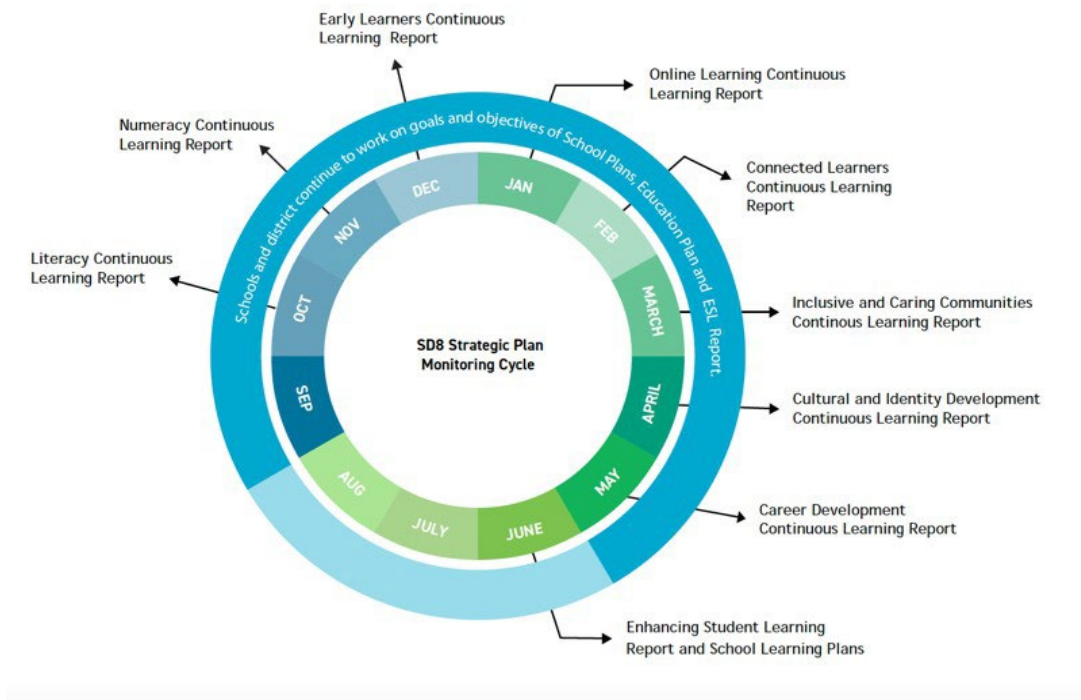

The mandate for public education is outlined in the Statement of [Education Policy Order](#), the [Framework for Enhancing Student Learning Policy](#), and the [Declaration of the Rights of Indigenous Peoples Act](#). SD8 supports this public education mandate.

The preamble to the School Act and the Statement of Education Policy Order states the purpose of the British Columbia school system is to enable all learners to become literate, to develop their individual potential and to acquire the knowledge, skills and attitudes needed to contribute to a healthy, democratic, and pluralistic society and a prosperous and sustainable economy. To achieve this purpose, there is a collective mandate to develop the Educated Citizen defined as the intellectual, human, and social and career development of every student.

SD8 has a continued focus on improving learning, inclusion and equity based on the Educated Citizen using high yield research-based strategies that are consistent with the Provincial curriculum. Since 2022-2023, SD8 has seen improved student outcomes in literacy, school completion, Indigenous student success, assessment participation and reliability, and monitoring of student learning initiatives.

The following annual cycle illustrates how continuous student learning is monitored:

Enhancing Student Learning Report, Continuous Learning Reports and School Learning Plans

Budget Process

The Ministry of Education and Child Care requires every school district to submit a balanced budget for the next school year by June 30. The Board of Education of School District No. 8 (Kootenay Lake) is therefore required to approve and submit its 2024-2025 budget on or before June 30, 2024.

In preparation of the 2024-2025 annual budget, organizational efficiencies were achieved through a detailed review of ancillary budgets and programming budgets, and despite financial pressures, the district has ensured that resources were focused on classroom support.

The budget process is based on the following main considerations:

- Alignment to the 2024-2029 Strategic Plan and maintaining a focus on the strategic priorities of: Lifelong Learners, Connected Learners, Caring and Inclusive Learning Culture, Cultural and Identity Development, and Career Development.
- Board consultation with key partners in April of each year: Kootenay Lake Principals and Vice Principals, Kootenay Lake Teachers' Association, CUPE Local 748, Aboriginal Committee of Education, Lower Kootenay Band, Kootenay Lake District Parent Advisory Committee, and students as well as the public.
- A public survey that provides feedback from parents and other partners on the annual budget.
- A recognition that teachers and education assistants in school classrooms and virtual spaces are vital to the success of our students.

As a result of these considerations, the district ensured that the expenditures related to the classroom were maintained and that the budget supported the Board of Education's 2024-2029 mission, "To inspire and support each learner to thrive in a caring learning environment."

Student Enrolments

SD8 is predicting an enrolment decline over the next several years; however, the decline will not be as rapid or as large as expected due to the population growth of British Columbia and some shifting of population between urban and rural centres.

The table below shows a district enrolment decline of 70.438 FTE (1.5%) for school aged students and no change in adult learners with total enrolments declining from 4,825.188 in 2023-2024 to 4,754.75 in 2024-2025.

The Board will have \$1.4 million less resources in 2024-2025 compared to the 2023-2024 Amended Budget. Special Purpose Fund grants from the Ministry of Education and Child Care (MOECC) account for \$1.3 million of the decrease in budgeted revenue. The remaining \$0.1 million decrease in revenue relates to lower investment income due to lower interest rates.

The expenses are budgeted to decrease by \$0.5 million relating to:

- an increase in salaries and benefits of \$0.5 million,
- a decrease in supplies and services of \$0.5 million, and
- a decrease in amortization of \$0.1 million.

The Operating Fund Deficit Before Inter-Fund Transfers of \$0.5 million relates to additional labour settlement costs. The MoECC has confirmed that these costs will be funded through a special labour settlement grant which will be reflected in the 2024-2025 amended budget, eliminating the Operating Fund Deficit Before Inter-Fund Transfers.

The inter-fund transfer of \$0.7 million from the Operating Fund to the Capital Fund for capital purchases will be funded from Opening Accumulated Surplus. Opening Accumulated Surplus amounts were internally restricted by the Board for future capital purchases on September 12, 2023. The Capital Fund Deficit After Inter-fund Transfers as shown above is \$0.1 million.

Operating Fund Revenue

The operating revenues as shown below are projected to decrease by \$41K (0.1%) compared to 2023-2024.

	2024-2025 Annual Budget	2023-2024 Amended Budget	Increase (Decrease)

Total Revenue	66,144,592	66,186,084	(41,492)	(0.1%)

The MoECC has increased the block funding per student by 3.4%. The district's reduction in enrolments of 70.438 student FTEs is offsetting the increase in revenue for per student funding.

The block funding increase covers wage increases of 2% for teachers, support staff and non-educator exempt positions and other inflationary cost increases. The additional 1% COLA increase for the teachers, support staff and non-educator exempt positions and the 3% increase for educator exempt positions will be received from the MoECC as a special grant and reflected in the 2024-2025 Amended Budget. The additional estimated revenue of \$0.5 million will increase the Provincial Grants-MoECC by \$0.5 million to \$64.1 million (an increase of 0.8% over 2023-2024).

Investment income is projected to decrease due to lower interest rates.

Operating Fund Expenses

The operating expenses as shown below are projected to increase by \$1.5 million (2.2%) compared to 2023-2024.

Total Operating Expenses	66,637,000	65,186,084	1,450,916	2.2%

Expenditures are focused on maintaining staffing levels across the district despite lower enrolments. The salaries and benefits are projected to increase by \$2.1 million (3.8%). As a percentage of total operating expenses, they have increased from 85.1% in 2023-2024 to 86.4% in 2024-2025.

Salaries and wages for all staffing groups have been increased by 3% as per the collective agreements and BCPSEA directive for exempt staff. In addition to this change, other changes include:

- Replacement of one District Principal position with a Director of Instruction which shifts salaries from Principals and Vice-Principals to Other Professionals
- Increase in Educational Assistants funded through the Operating Fund which were previously funded from Special Purpose Funds
- Anticipated higher levels of filled positions which shifts wages from substitutes to support staff

Services and Supplies are projected to decrease by \$0.6 million (6.5%) due to the elimination of one-time costs, more virtual and in-house embedded learning for professional development, shifting from leasing to purchasing technology assets, savings from contract re-negotiations, and utility savings (HVAC upgrades).

Special Purpose Funds

The revenue from Special Purpose Funds as shown below is projected to decrease by \$1.3 million (8.7%) compared to 2023-2024.

	13,834,304	15,153,919	(1,319,615)	(8.7%)

The most significant decrease of \$1.0 million (9.8%) relates to the Classroom Enhancement Fund which provides additional funding for teachers based on required class size and composition.

Decreases in the After School Sports & Arts Grant, Early Childhood Education Dual Credit Program, OLEP, Seamless Day Kindergarten, and Student & Family Affordability Fund, totalling \$0.2 million relate to the assumption of no carry forward amounts being available in 2024-2025 compared to 2023-2024.

The remaining decrease in Community Link, Feeding Futures Fund and Learning Improvement Fund, totalling \$0.1 million relates to lower funding due to lower enrolments.

Kootenay Lake

IN-PROGRESS

2024 - 2025

**Kootenay Lake Board
of Education**

**GOVERNANCE
FRAMEWORK
AND ANNUAL
LEARNING PLAN**

THE IMPORTANCE OF A GOVERNANCE FRAMEWORK AND LEARNING PLAN

Effective Boards of Education have a governance structure that is designed to result in strong decisions that flow from a strategic direction supported by quality information and transparency. This clear governance framework has been used to establish the board's annual learning plan and is designed to demonstrate to the public how the work of the board supports these principles.

The Board of Education, working hand- in-hand with the superintendent and senior staff, accomplish their work in the following ways:

- Setting the strategic direction in the context of the district and province;
- Monitoring the performance of the system and adjust plans as necessary;
- Attending to both internal and external compliance and accountability;
- Engaging effectively with Indigenous rights holders and partners and the public and operate on a basis of transparency; and
- Advocating for public education locally and provincially.

In the annual learning plan, the activities of the Board, both annual and emergent, are identified for the coming year as a way to communicate the work of the Board and as a way to operate on the basis of transparency.

In each month, the work of the board is aligned to the governance framework. While many issues overlap, the broad categories operate as an efficient and effective organizer for the work of the board.

BOARD'S VISION AND GOALS

Annually, the board refines and establishes its goals, to support the overall district vision:

“We inspire and support each learner to thrive in a caring learning environment”.

We realize this vision through the following strategic priorities:

Lifelong Learners: We improve student learning through interest-based, competency-based, flexible and innovative approaches.

Connected Learners: We inspire learners to become curious, critical, and creative stewards of the natural world and the local and global community.

Caring and Inclusive Learning: We promote physical and mental well-being through social-emotional learning to foster compassionate learners.

Culture Cultural and Identity Development: We promote a positive sense of identity in culturally safe and responsive communities of learning.

Career Develop Development: We prepare students to graduate with options for their future life and career goals.

Our Commitments

- Our commitment is to ensure that each learner has the opportunity to be successful and is supported with high-quality services; that resources are distributed equitably; and, that students are at the centre of everything we do.
- Our commitment is to ensure support for a strong and thriving workforce. We believe that learners thrive when employees thrive. An exemplary workforce, operational excellence, and meaningful partnerships will strengthen our ability to keep our commitment.
- Our commitment will be demonstrated through services to schools, our adherence to sound financial practices, as well as how we recruit, hire, and develop the best staff in education.
- Our commitment is to responding to climate change and this will be demonstrated in our services.
- ~ Our commitment will be sustained by measuring and reporting on our performance in key areas. Doing so reflects our responsibility to communities and our assurance to continuous improvement to support the success of our students.
- We are excited to work alongside our partners in implementation of these strategic priorities. This is a collaborative effort, and we will hold ourselves accountable to the vision, mission, values and strategic priorities.

FROM GOVERNANCE AND STRATEGIC VISION TO A STRATEGIC BOARD LEARNING PLAN

As part of effective governance, each year the Board of Education completes a self-evaluation identifies strategic learning and advocacy plans for the year ahead.

This plan is tailored to the events and activities are on the board's horizon while attending to the ongoing governance and compliance issues that are annual in nature.

Annual learning plan

The learning plan is determined through the Board's self-evaluation process and the Board's advocacy plan. In addition to the annual learning plan, the board regularly engages in working sessions and professional development activities to both inform the board in a deeper way about the monthly governance work, but also as a way to support individual trustees as they work to continually support quality public education.

These working session opportunities are an important supporting structure for the board's work. These sessions help deepen the board's understanding of the context of School District No. 8 (Kootenay Lake) and to address any questions or issues that the Board may have. In each month of the year, there is generally a theme for the Board activities.

Board's Governance Activities

- ~ Strategic direction and system planning and monitoring
- ~ External compliance and accountability
- ~ Engagement with partners and public recognition events
- ~ Policy, advocacy for public education and Board learning plan

These sections of the annual learning plan, aligned with strong governance themes, are outlined in monthly and ongoing activities of board governance.

Trustee Working Sessions

The ongoing work of the board is supported by targeted regular working sessions. These activities are listed in this section of the annual work plan and are intended to support the governance activities in that current month.

It is important to note that at each monthly Meeting of the Board Held in Public, trustees report out on a range of activities and events in addition to receiving reports on updates on continuous improvement in learning, budget and capital.

THE BOARD'S WORK PLAN

The Board of Education schedules meetings in a predictable cycle and seeks to reduce barriers to attendance and participation. The Board will adjust their meeting cycle as necessary to attend to emergent items.

Meetings of the Board Held in Public and Closed Board Meetings

Board meetings are scheduled on the 2nd Tuesday of each month between September and June. Meetings of the Board Held in Public are convened in a hybrid format to reduce barriers to attendance. FROM: Trish Smillie, Superintendent
DATE: May 14, 2024
SUBJECT: Approve 2024-2025 and 2025-2026 Amended School Calendar

For Approval

Introduction

This memorandum provides an overview of amendments to the 2024-2025 and 2025-2026 School Calendars.

Information

[The School Act](#) requires that all school districts in British Columbia develop their own school calendars. School calendars must provide the minimum number of prescribed instructional hours identified in the [School Calendar Regulation B.C. Reg. 314/12](#).

For a Board to amend a school calendar, the following regulation applies:

- 6 (1) For the purposes of section 87.02 [school calendar – amendment] of the Act, a board must make publicly available proposed amendments to a school calendar at least one month before making the amendments.

The public consultation process is outlined as follows:

- 5(1) For the purposes of section 87.01 (7) [school calendar] of the Act, a board must make publicly available a school calendar that it proposes to submit to the minister under section 87.01 (5) or (6) of the Act at least one month before the date the school calendar must be submitted to the minister.
- (2) The board must provide an opportunity to (a) the parents of the students enrolled in each school to which the proposed school calendar is to apply, and (b) representatives of employees of the board assigned to the school to provide comments to the board with respect to the school calendar made publicly available under subsection (1).

Amendments to the Proposed Calendars

The District has met with the KLTF, CUPE, KLPVPA to amend the proposed 2024-2025 and 2026-2027 school calendars. The proposed school calendars have changed dates for the early dismissal days in currently in November. To align to the new Reporting Order introduced in 2023-2024, educators have requested that early dismissal dates be held in October. In the Wildflower calendar, the number of days were aligned. In addition, the end of the 2024-2025 last day of school has been moved forward to align to the number of days on the calendar.

Publicly Available Draft

The recommended calendars were posted on the website with a webform for feedback since March 9, 2024.

The following feedback was received:

- A comment about the difficulty of working parents to find child care during pro-d days, early dismissal days, etc., noting the need afterschool care, before school care, and options for school breaks.

Recommendation

It is recommended that the Board approve the 2024-2025 and 2025-2026 school calendar amendments.

7.2. The School Act gives no individual authority to an individual trustee. As a member of the corporate Board, trustees are accountable to the public for collective decisions of the Board, and for the delivery and quality of education services.

7.3. Trustees must always be guided by the Trustee Code of Conduct including confidentiality and the Oath of Office.

7.4. Trustees must represent the best interests of the entire School District. This representation must supersede any conflicting loyalty such as that to advocacy or interest groups, other Boards or staff, or third-party users of the School District's services.

7.5. Liaison opportunities for individual trustees provide for increased communication between trustees and school communities. Schools within in School District are divided between trustees to ensure the trustees have knowledge of their electoral area liaison schools and the programs and initiatives that are achieving the School District's goals.

7.6. The rationale, purposes and parameters of trustees, being the liaison between the Board and assigned schools, is provided as follows:

7.6.1. To provide the Board with an opportunity to have a presence at each school.

7.6.2. The trustee liaison participates in school activities as requested or invited by the school principal.

7.6.3. The trustee liaison must follow the Board communication policy and procedures.

7.6.4. Trustees can show appreciation and support and help celebrate student, staff, and community successes. Parents, caregivers, and community members are then aware of their Liaison Trustee contact. Trustees are not invited to

- operational or administrative functions of the school, such as staff meetings or meetings related to the management of the school.
- 7.6.5. When the trustee liaison hears any emerging issues at assigned schools or sites; it is their responsibility to advise the Superintendent of Schools/CEO and Board Chair for immediate handling.
8. The role of the trustee liaison is not intended to undermine or supersede the role of the school principal, Parent Advisory Committee Chair or other staff.
- 8.1. A Trustee adheres to their role within governance as outlined in Policy 111: Roles and Responsibilities of the Board of Education;
- 8.2. The defined process for resolution of parent/caregiver concerns is outlined in [AP 1310 - Communication](#) and the [SD8 Communication Protocol](#); or through other processes for discussing concerns by the school or district staff.
9. Trustees must respect the Superintendent of Schools/CEO's responsibility for the day-to-day administration of the School District. Complaints and criticisms from parents, staff or the public for the Superintendent should be forwarded to the Superintendent for the Superintendent's handling.
10. Trustees must not attempt to exercise individual authority over the organization and recognize that they do not direct staff.
11. Attendance at school events by the trustee liaison would vary in detail from school to school, and this would be clearly defined through discussion with the School Principal, as is deemed appropriate by the Superintendent.
12. Should a trustee wish to visit a school that is not included within their specific school assignment, they may do so with an invitation from that school's principal. Such a request should be initiated by contacting the Superintendent of Schools.
13. The role of trustee liaison is intended to strengthen the bond and further communications between schools and the Board in a manner that demonstrates the work of Boards while clearly respecting the role and authority of school administrators and staff.
14. Trustee Liaison Checklist:
- Become familiar with and adhere to the Trustee Code of Conduct.
 - Ensure clarity and understanding of the trustee liaison role. Liaison school visits should be with a purpose or intent.
 - Be cautious about interrupting the learning environment. Staff will understand that they do not need to interrupt their day-to-day activities when a trustee visits their school.
 - The trustee liaison must ensure they sign in and sign out at the school's main office in adherence to all school visitor safety protocols.

Related Legislation: Sections 8.4, 8.5, 22, 65, 74, 85 School Act, Ministry of Education and Child Care website
Adopted: April 28, 1997
Amended: June 12, 2018; February 13, 2024; May 14, 2024

- Where possible, the trustee liaison will take part in activities at other schools throughout the district by invitation or as requested.
- The trustee will attend school Parent Advisory Committee meetings when invited. If invited, the PAC Chair will contact the trustee liaison and the trustee will ensure that they attend as observers or to represent areas related to governance. All items brought forward of an operational nature will be directed to the principal.
