

POLICY 112: Governing Principles

The Board of Education is responsible for governing the school district based on the educational aspirations of local communities and in accordance with the policy direction established by government. The respective responsibilities of the Ministry of Education and Child Care and Boards of Education are detailed in the School Act.

The Board will set, create and maintain a Strategic Plan, annually report on student outcomes and put systems in place to continuously improve the educational outcomes for all students and improve equity for Indigenous students, children and youth in care, and students with disabilities or diverse abilities.

1. The power and authority of the Board only exists when it acts as a whole. As individuals, Trustees exercise no power or authority in the organization and therefore cannot act or speak for the Board unless specifically delegated to do so by the Board.
2. The only decisions of the Board are those made by the Board in a legally convened session through its accepted decision-making processes.
3. The Board's role is to oversee the strategic direction of the organization and maintain effective relationships with Rightsholders and partners.
4. In carrying out its work, it is essential that the Board prescribes clear, measurable outcomes to be achieved in relation to the Board's Strategic Priorities. The Board will adopt policies that aid in the achievement of outcomes.
5. The work to be done by the Board is determined by its mandate and its purpose (as stated in legislation), which is to govern, and consequently, is different to the work to be done by the district management, which is management and operations.
6. Trustees commit to partnering with each other and with the Superintendent of Schools/CEO to engage in actions and decisions that contribute to building and maintaining a healthy and effectively functioning Board and organization.
7. The Superintendent of Schools/CEO is the Board's only employee;
 - 7.1 who is directed by and who reports to the Board;
 - 7.2 with whom the Board communicates and interacts regarding the management, administration and operation of the organization; and
 - 7.3 who the Board holds accountable for organizational performance.

8. At the Board's request or on the initiative of the Superintendent of Schools/CEO, relevant school district staff may be invited to attend a Board or Committee meeting to provide information relevant to their area of expertise or job responsibility, so as to assist the Board or a Committee in its discussion of a matter under its consideration.
9. The Board will ensure that an annual assessment and evaluation of Board performance is conducted (as per Policy 113: Board Evaluation and Monitoring).
10. The Board governs through policy.
11. The Board will govern in accordance with its Strategic Plan which outlines the Board's monitoring cycle.
