

6.4 Seizure Care

ADMINISTRATION OF SEIZURE RESCUE MEDICATIONS

The Ministry of Health and the Ministry of Education and Child Care have developed [Seizure Rescue Intervention Resources](#) for student seizure care at school. These resources include a Seizure Action Plan to replace previously-delegated [Nursing Support Services \(NSS\) care plans](#).

For students with seizures, parents – with their physician – need to complete a [Seizure Action Plan](#) yearly so that school staff can effectively care for students.

Please contact the Ministry of Health through [HealthLinkBC](#) with any questions regarding information and resources for seizure care.
