BC Ministry of Education Definition

Physical Restraint is a method of restricting another person's freedom of movement or mobility in order to secure and maintain the safety of the person or the safety of others.

The provision of a 'physical escort', i.e. temporary touching or holding of a student's hand, wrist, arm, shoulder or back for the purpose of accompanying and inducing a student who is acting out to walk to a safe location, does not constitute physical restraint.

The provision of physical guidance, or prompting of a student when teaching a skill, redirecting attention, or providing comfort also does not constitute physical restraint.
